

Case Study - Transport

Heathrow Airport - London

Project Specifications

Product Specified: NHD18

Colour Specified: Aluminium

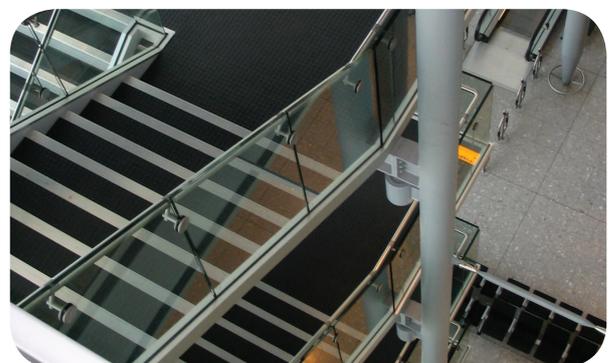

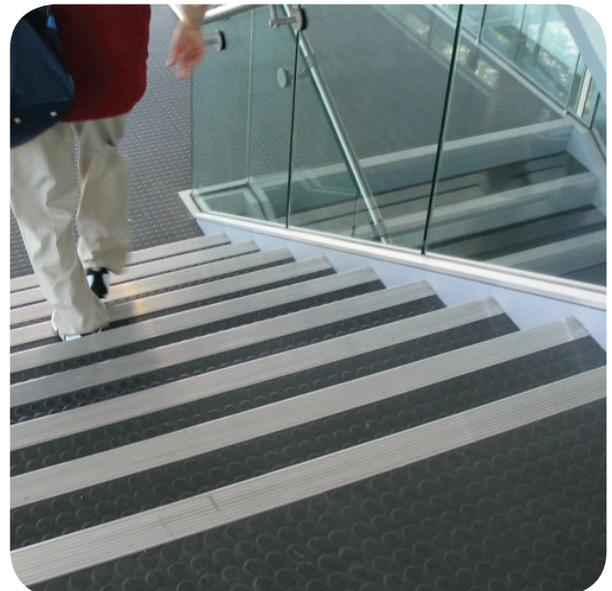

Sector: Transport

Project Description

Genesis NHD18 Stair Nosing is currently being installed throughout Heathrow Terminal 5 and most recently Terminal 3 renovations creating a safe environment for employees and travellers alike in the world's 4th busiest airport. This traffic meant the profile had to be very durable and still provide the necessary safety properties.

This 100% Aluminium design with Aluminium insert fits the criteria and stays in line with BS8300:2009 and Approved Document M (ADM).

Working closely with BAA and the contracts team on the new Heathrow Terminal 5 complex, Genesis Global Systems Ltd helped design and supply in excess of some 10,000 linear meters of this bespoke interior nosing and are now proud to associate them with BAA as a preferred supplier of choice for their flooring accessory solutions throughout all airports managed by BAA.
