

Case Study - Residential

South Shields Million Pound Apartment Development

Project Specifications

Product Specified: TDP100.91

ESA100.94

MHS100.35

Colour Specified: Bright Silver, Brushed Silver, Dark Grey

Sector: Residential

Project Description

This is a very exciting time for residents of South Shields as the first of its kind is being constructed - a million pound penthouse apartment spanning the entire top floor of the apartment block. Genesis products have been used throughout this project to create stunning finishes.

Every bathroom in the executive apartment block features ESA100.94 to create stylish niches and tile edges. The brushed effect surface beautifully compliments the tiling around many of the baths.

MHS100.35 movement joints and TDP100.91 have been used to create subtle transitions between doorways where discretion is key and a traditional transition strip is not requested.
