

Case Study - Automotive

Mercedes Benz, Slough

Project Specifications

Product Specified: MSA100.35

Colour Specified: Dark Grey

Sector: Automotive

Project Description

Mercedes Benz of Slough recently underwent a facelift! This included a brand new ceramic floor.

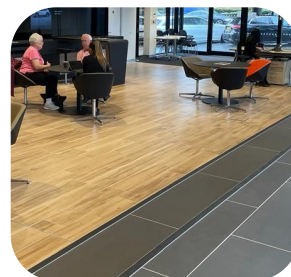

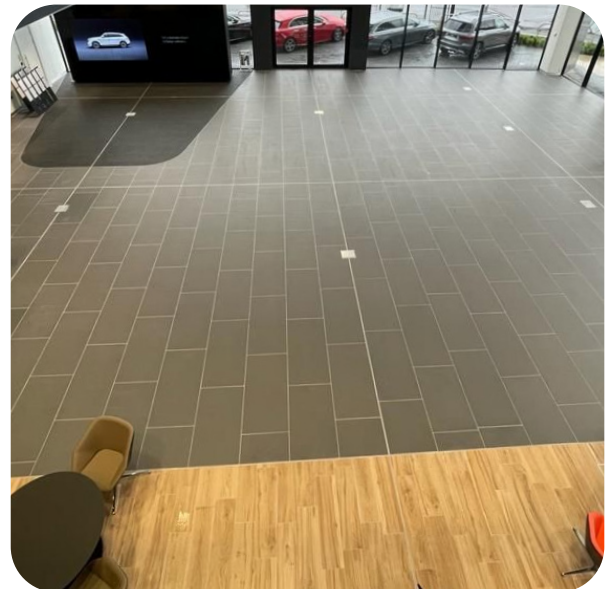

7Formation Ltd were engaged by Vertu Motors plc to carry out the full refit of their Mercedes Slough Showroom and subsequently Tileform Ltd were appointed to carry out the full tiling package.

With floor size in mind and in keeping with British standards, Genesis supplied Tileform with our Optimax Aluminum Heavy Duty Expansion joints.

Preventing lateral movement is essential on projects like this, with movement almost guaranteed in both the subfloor and on the tiled surface - Optimax joints provide ongoing protection with movement accommodation; these Joints far surpass the minimum requirement.

A massive thanks to Tileform for sharing this project with us.

Showroom address -
Mercedes Benz, 273-283 Bath Road, Slough, SL1 5PR
