Project Description

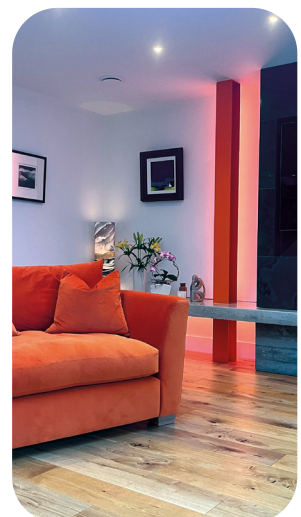

Enhancing Residential Lighting with our TRV - Retro Self Adhesive LED Profile in Great Ayton, North Yorkshire.

In collaboration with PH Greenwell Contractors, we are thrilled to present a case study showcasing the successful installation of our TRV LED Profile, this innovative lighting solution has not only transformed the aesthetic appeal of the property but also enhanced functionality and energy efficiency.

The client, a homeowner in Great Ayton, sought to upgrade their residential lighting to create a modern and inviting atmosphere. They desired a solution that would seamlessly blend with their existing interior design while providing efficient and versatile lighting options.

The installation process was seamless, thanks to the self-adhesive backing, which minimized disruption and time required for implementation.

As you can see, the client now enjoys a modern, efficient, and visually stunning lighting solution in their home.
