Code	Description	Application Materials	Features
BU-DCWA5	6 block diamond grinding wheel #25/30 grit	Harsh surface, concrete, cement and other heavy materials	<ul style="list-style-type: none"> For grinding rough surfaces Grit is coarse and sharp arrow-shaped diamond tip, makes this ideal for first step working Fast acting
BU-DCWD5	Dual row diamond grinding wheel #35/40 grit	For rough grinding surfaces of granite, concrete and masonry materials	<ul style="list-style-type: none"> Ideal for bevelling, smoothing and sharpening Grinding rough surfaces Stable and durable
BU-DCWF5	Turbo diamond grinding wheel #35/40 grit	Concrete, cement and paint	<ul style="list-style-type: none"> Quality surface finish Excellent first cut prior to polishing Long lasting The outer perimeter blocks cut fast and the angled blocks give a more refined finish
BU-DCWT5	Pro turbo diamond grinding wheel #40/45 grit	Concrete, ceramic and stone materials	<ul style="list-style-type: none"> Stable and durable Fast acting Suitable for both rough surfaces and fine finishing Long working life
BU-DCWG5	Paint & epoxy diamond grinding wheel #50/60 grit	Epoxy, paint, waterproofing membrane glues and adhesives	<ul style="list-style-type: none"> Flexible and light weight Removes thin paints, coatings and rust Provides a fast removal speed Digs in and tears off as opposed to grinding the surface down

Dust Extraction System for Grinding Wheels

- Available in Ø125mm & 180mm
- With universal connectors for angle grinders
- Quick release lock
- Fast evacuation of dust
- Rubber adapter for vacuum cleaner
- Movable guide for grinding upto walls
