

Dust Extraction System

Collects dust and water when drilling while acting as a guide, suitable for drilling up to \varnothing 72mm.

Simply connect to a vacuum cleaner with the nozzle diameter of 25-35mm, the air is channelled producing a seal against the tile.

- Flexible rubber gasket that maintains the connection with a vacuum nozzle (diameter of 25-35mm)
- Suction that seals even on uneven surfaces
- Suitable for drilling up to 14-72mm hole saws
- Supplied with adaptor for connecting to vacuum cleaner
- Powerful suction keeps extraction system in place
- Flexible gasket that maintains positioning on textured tiles
- Universal connection for most vacuum cleaners
- Helps remove dust when drilling indoors

BU-TDBS Dust Extraction for drilling

Without Dust Extractor

With Dust Extractor

Connects easily to any vacuum cleaner
